DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Annex is located on the north side of Maryland Route 544 approximately 1 1/2 miles east of Crumpton. The house rests on the bank of the Chester River, separated from Ford's Landing to the east by a dammed up stream bed.

The house is of frame construction, 1 1/2 stories high, three bays wide and one room deep, with an exterior brick chimney on the west end of a pitched gable roof. A lean-to addition now covers the north or river facade of the building.

The front facade faces south, away from the river. The door is located in the center bay flanked by a single 2/2 window on each side. There are two 2/2 shed roof dormers on the second floor. The building now rests on a concrete foundation and is covered with plain horizontal weatherboard siding and a wood shingle roof. The eaves are boxed-in and left plain. A small entrance porch protects the center bay on this facade.

The chimney projects from the center of the west gable wall. It is constructed of relatively

STATEMENT OF SIGNIFICANCE

This small frame house, measuring 16 feet wide and 28 feet long, is an example of a hall parlor plan dwelling dating to the mid-19th century. The exterior chimney with sloping weatherings on the west gable wall heated one room on the first floor; the remainder of the house was evidently unheated. The second story was originally only plastered on the gable walls, with the roof left exposed and whitewashed. Later alterations included the inserted plaster ceiling on the second floor, the removal of the first floor partition, and an addition to the north facade.
